Looking for Income Alternatives?

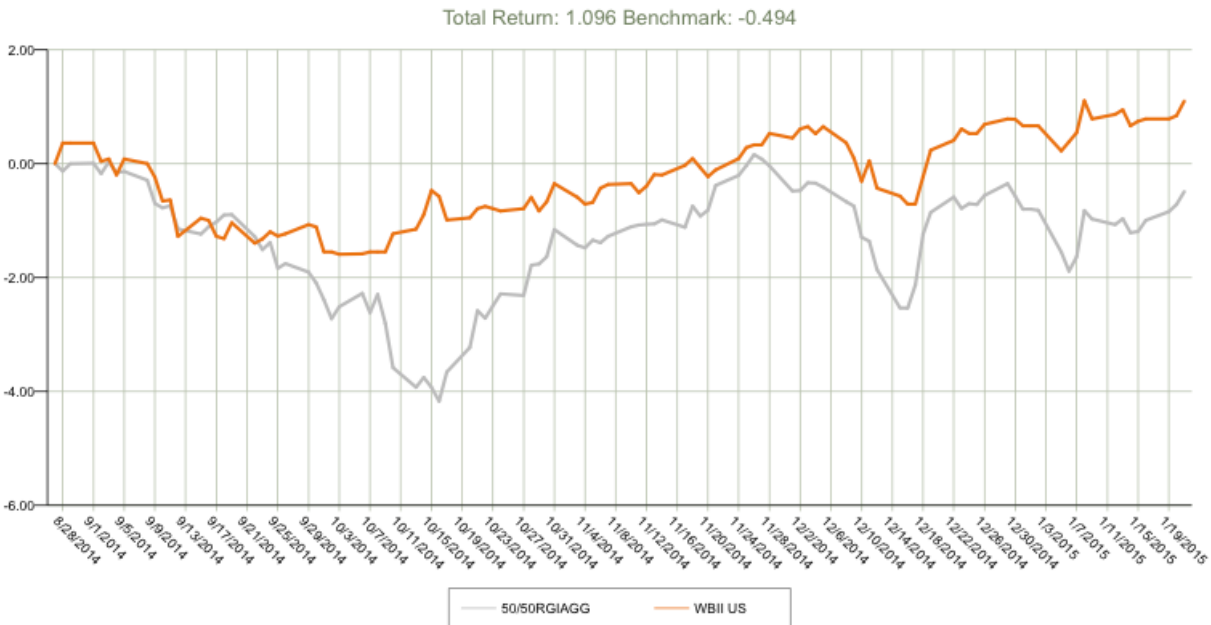

WBII is a Tactical Income ETF the Seeks to Provide Lower Volatility and Correlation

In 2014, WBI celebrated the firm's 30th year in business. It was an exciting year for the firm as it launched 10 active ETFs in August. By the end of the year, WBI raised \$1.1 billion in assets which accounted for 45% of the asset growth in the active ETF space. WBI's time-tested active approach aims to reduce risk to protect capital and is tactical in an attempt to find the best global investment opportunities.

WBI Tactical Income (WBII) seeks to provide investors with a wealth-building investment strategy that provides low volatility, low correlation and an optimal blend of bear market capital preservation and bull market return. Since inception (8/27/14 to 1/21/15), WBII has outperformed the fund's blended benchmark by 1.59% (1.10% vs. -0.49%). From inception (8/27/14) through year-end (12/31/14) WBII also outperformed the fund's blended benchmark 0.66% vs. -0.80%.

The performance data quoted represents past performance and is not a guarantee of future results. Investment return and principal value of an investment will fluctuate so that an investor's shares, when redeemed, may be worth more or less than their original cost. Current performance may be lower or higher than the performance data quoted. For most recent month-end performance, please visit www.wbishares.com. Per the Prospectus, the Fund's annual operating expense (gross) is 1.05%. The Fund's Sub-Advisor has contractually agreed to waive the fees and reimburse expenses of the Fund such that total annual operating expenses are limited to 1.25% of average net assets until at least September 30, 2015.

Fund outperformance for the period could be attributed to the funds low correlation of 0.45 relative to the index. Most importantly, WBII had low bear correlation (0.28) relative to the index which helped to produce a Sharpe Ratio of 1.09 since inception. If you are looking for a flexible income ETF, WBI Tactical Income may be an alternative that has lower volatility, correlation, and risk to capital than a passive approach.

Founded in 1984, WBI seeks to provide investors with wealth-building investment strategies that target an optimal blend of bear market capital preservation and bull market return. The firm's strategies aim to produce attractive returns with less volatility and risk to capital. WBI Investments, Inc. manages separately managed accounts, mutual funds, and exchange-traded funds.
